Membuat label dan ikon email untuk memasukan Alamat email yang terkait

The screenshot shows a VS Code editor with a file explorer on the left and a code editor in the center. The file explorer shows a project structure with folders like 'app', 'pages', 'prisma', 'public', and 'tailwind.config.ts'. The code editor displays the 'forgot_password' page, which is a Next.js page. The code includes a form with a title 'Reset Password', a subtitle 'Enter your email address and we'll send you instructions to reset your password.', and an email input field. The input field has a label 'Email Address' and a focus ring. The code also includes a submit button and a form action.

```
const ForgotPassword = () => {  
  <div className="bg-white rounded-xl shadow-lg p-8">  
    <div className="text-center mb-8">  
      <h2 className="text-2xl font-bold text-black">Reset Password</h2>  
      <p className="text-gray-600 mt-2">Enter your email address and we'll send you instructions to reset your password.</p>  
    </div>  
    <form onSubmit={handleSubmit} className="space-y-6">  
      <div>  
        <label className="block text-sm font-medium mb-2 text-black">Email Address</label>  
        <div className="relative">  
          <input  
            type="email"  
            value={email}  
            onChange={(e) => setEmail(e.target.value)}  
            className="w-full pl-10 pr-4 py-2 border rounded-lg focus:ring-2 focus:ring-blue-500"  
            required  
          />  
          <Mail className="absolute left-3 top-2.5 text-gray-400 w-5 h-5" />  
        </div>  
      </div>  
    </form>  
  </div>  
}
```
