Membuat halaman kosong dan form data sign up admin secondbrand.co

The screenshot shows a Visual Studio Code editor with a project named 'BBC2'. The Explorer sidebar on the left shows a file tree with folders like 'app', 'admin', 'orders', 'products', 'settings', 'testimonials', 'layout.tsx', 'page.tsx', 'categories', 'contact', 'fonts', 'forgot_password', 'login', 'logout', 'products', 'signup', 'testimonials', 'favicon.ico', 'globals.css', 'layout.tsx', 'page.tsx', 'Dokumentasi', and 'node_modules'. The 'signup' folder is expanded, showing 'page.tsx' and 'U'. The main editor displays the content of 'page.tsx' in the 'signup' folder. The code is in TypeScript and defines an interface for form data and a function for admin registration.

```
1 'use client';
2
3 import React from 'react';
4 import { User, Mail, Lock, Building, Phone, ArrowLeft } from 'lucide-react';
5
6 // Define the interface for form data
7 interface FormData {
8   fullName: string;
9   email: string;
10  password: string;
11  confirmPassword: string;
12  phone: string;
13  role: string;
14  storeName: string;
15 }
16
17 const AdminRegistration: React.FC = () => {
18   const [formData, setFormData] = React.useState<FormData>({
19     fullName: '',
20     email: '',
21     password: '',
22     confirmPassword: '',
23     phone: '',
24     role: 'admin',
25     storeName: ''
26   });
27   const [errors, setErrors] = React.useState<{ [key: string]: string }>({});
28
29   return (
30     <div className="min-h-screen bg-gray-50 py-12 px-4">
```

The bottom of the editor shows the 'PROBLEMS' panel with the message: 'No problems have been detected in the workspace.'
